Texas Type 3 All Hazard Incident Management Teams
Welcome to the 3\textsuperscript{rd} Annual Meeting

- Introductions
- DPS by Region
- AHIMT by Region
- TDEM by Region
- SOC Team
Reason for Incident Management Teams.

- *Increase local response*
- *Supplement the State response*
- *Assist with National Responses*
Team Membership

• Members can choose to serve locally with the team on local responses and need no MOU.

• In order for members to make State or out of State responses they must have an active MOU with the Texas A&M Forest Service.
Membership

• Currently we have 373 Individual MOU’s with all teams.
• 120 of these are renewed members.
• Since last year we have had 34 memberships cancelled. 10 of those because they are TFS employees now.
19 Teams
Other Incident Management Teams

- DSHS
- BCFS
- Red Cross
- Raven Group
- HELP Foundation
- Texsar
- CIMA
- Team Rubican

DDC/ Local IMT Coordination

The Regional Steering Committee Members will be in contact with each of the AHIMT in their Regions.

They will assign the teams to the DDC’s in some cases this is pretty easy, in others it will take some coordination.
IMT Roles in 2016

• DDC Support
• DDC Staging Area Support
• Local Government Support
Support at DDC

• Support DDC Chair
• Support District Coordinator
• Resource Tracking
• Logistics Tracking
• Submission DDC Situation Report to SOC
• SOC Battle Rhythm
Team Configuration

It’s better sometimes to just put on the STAR request what it is that you want people to do and let us fill the request.
Qualifications

• Qualifications guide updated for 2016.
• You can find it posted on the TICC website http://ticc.tamu.edu/Documents/IncidentResponse/AHIMT/Texas_AH_Type_3_Qualification_Guide.pdf
• The Qualifications Committee has a 2 week turn around on new qualifications reviewed.
• Qualification cards are being issued in a more timely manner.
Qualifications

All team members will receive a new qualifications card based on their qualifications in IQS.
You may have a picture on file, somewhere, but if Chelsea doesn’t have it you can’t get a new card.
IQS

• This is the same system that the Texas A&M Forest Service uses for it’s employees.
• All teams have access to this system.
• Allows for one site to store all information.
• Maintained by the TFS.
• This system is used by most state agencies across the USA.

</table>
Task Books

• Task books are still issued by the local IMT or other groups.
• The cover sheet is entered into IQS and emailed to AHIMT@tfs.tamu.edu for the person to be identified as a trainee.
• Anyone can sign for an assignment on an incident.
• However, the Final Evaluator has to be qualified in that position.
Operational Readiness Exercise

- Held second ORE in Beaumont Texas
- Attended by over 60 people.
- 22 people worked on task books.
- Simulation was designed to complete tasks in task book for each position.
- Exercise was terminated to respond to actual incident.
Trainee Assignments

• Texas Interagency ICS and Wildland Fire Academies.

• POC is Chris Angerer :cangerer@tfs.tamu.edu

• Other opportunities will be relayed to team leaders as they develop.
Activations

• The SOC makes an inquiry as to how many AHIMT we can activate.
• We send out a notice by email to the three team leads for each team.
• The team leads have two hours to contact their team members and reply.
• The TFS then notifies the SOC how many teams are available.
• TFS gets a request for an AHIMT for an incident.
• TFS contacts closest available team and dispatches them to incident.
• If there is a need we will combine two teams to make one.
• TFS will always send a TFS Representative with each team deployed.
Reimbursement

• Local responses are **not** reimbursable.
• Requests for teams have to come through WebEOC.
• Requests have to be approved by the SOC for reimbursement.
• You can pick up a reimbursement form at the registration desk, for the conference.
Thanks for your attention.
