

Commodity Distribution Plan For IMTs

Terminology

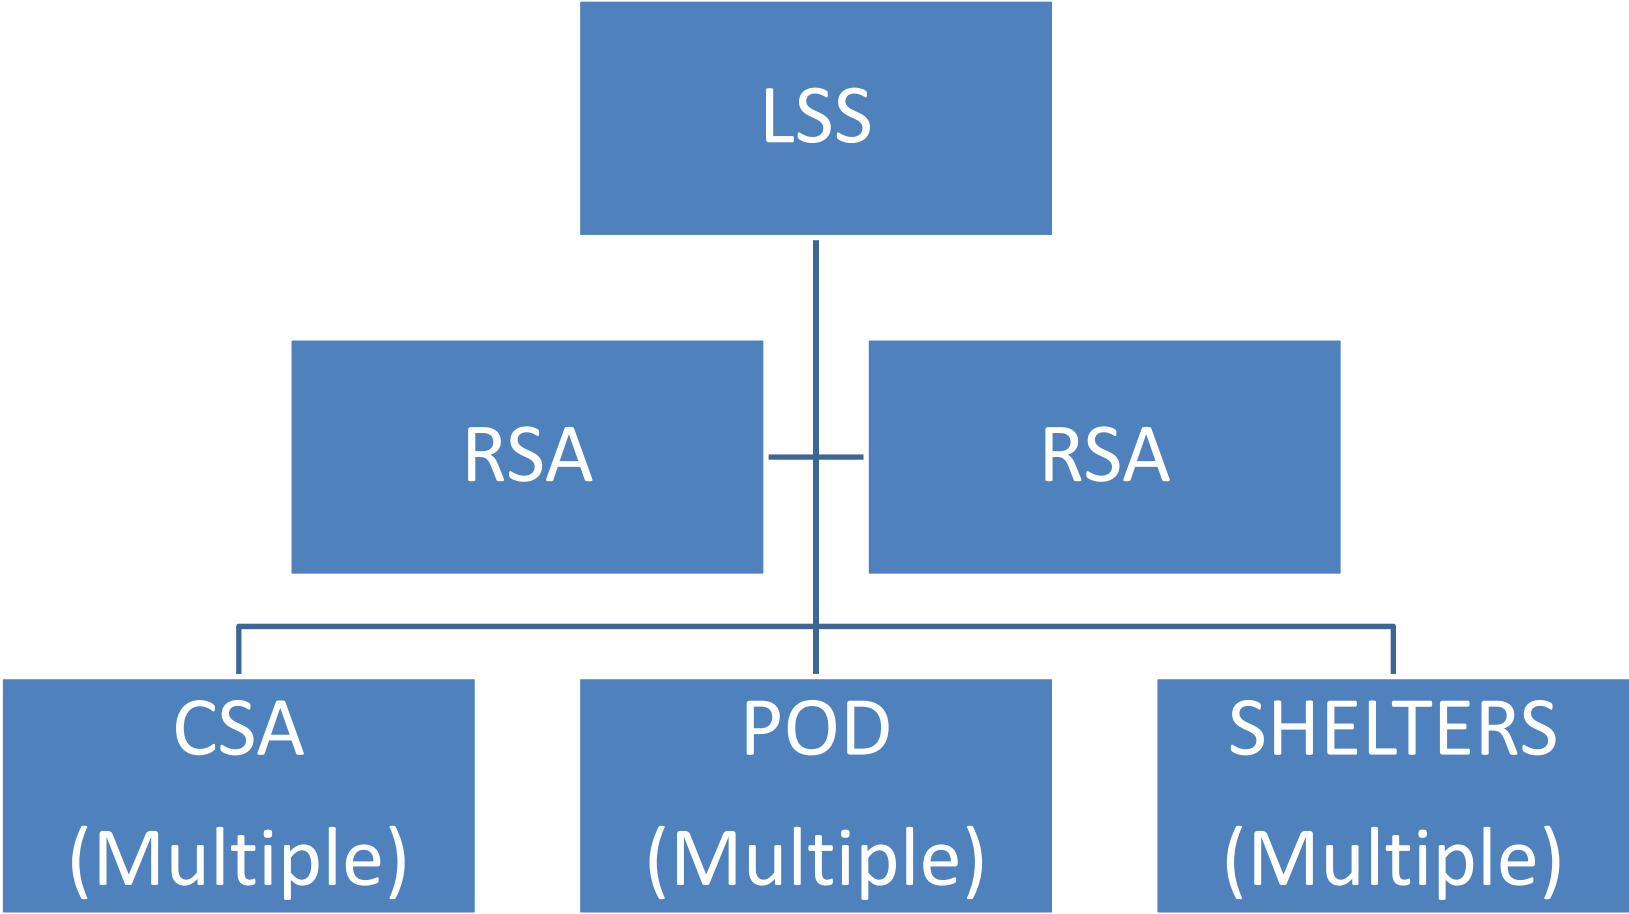

- **Logistics Staging Site (LSS)** – Permanent logistics site with oversight by TDEM
- **Resource Staging Area (RSA)** – Warehouse facility or a commodity truck staging area where personnel monitor the inventory of commodities and provide sufficient commodities to multiple CSAs / PODs for distribution to the public.
- **County Staging Area (CSA)** – An area selected and operated by a county for temporary staging of basic commodities for bulk distribution following a disaster.
- **Point of Distribution (POD)** – located at various locations in an impacted county for distribution of food, water and ice.

FACILITIES

- **Logistics Staging Site (LSS)** – San Antonio and East Texas
- **Resource Staging Area (RSA)** – located in proximity of impact area – Ford Park, Beaumont; Reliant Center, Houston; HEB Warehouse, Weslaco
- **County Staging Area (CSA)** – located in impacted county – used for distribution to isolated areas and for first responders
- **Point of Distribution (POD)** – located at various locations in an impacted county and designed where citizens do not get out of their vehicles. – Basically a drive-through.

Planning Assumptions

- **County Judges will determine the location for CSA and PODS**
- **To the greatest extent possible, counties will operate CSA and PODS**
- **RSA will be operated by TFS/AHIMT in a unified command and support commodity distribution to CSA, PODS and support shelter operations**
- **Commodity flow, power restoration and retail store availability will be monitored**
