

TIFMAS Engine Field Day 2015

TIFMAS Engine Field Day 2015

Mission

Exercise skills specific to wildland fire engine operations; including hose lays, water use, drafting, chainsaws, portable radios, handtools, personal gear, etc.

Develop and foster interagency working relationships among TIFMAS partners

Share ideas and experiences that enhance training value

TIFMAS Engine Field Day 2015

The invitation was open to all departments that participate in the TIFMAS program, and members from all over the region attended.

TIFMAS Engine Field Day 2015

After check-in, participants were randomly assigned to groups, and rotated through various evolutions, both in the field and classroom.

TIFMAS Engine Field Day 2015

The various evolutions provided participants the opportunity to offer valuable input and experiences: Personal Gear/Radios, Chainsaw Use, Drafting/Water Use, and Hose Lays
