Welcome to the 16th Annual
East Texas Interagency Wildfire & Incident Management Academy

Fellow students, colleagues, and friends...

Since 1998, we have helped bring emergency responders, of all backgrounds, through the ranks, whether starting from the bottom or in the middle of a career. At the East Texas Interagency Wildfire & Incident Management Academy, we strive to provide a diverse and well-rounded learning experience. The training we provide offers classes from Basic Wildland Firefighter all the way up to Fire Supervisor, and everything in-between.

This year we are offering more than 20 National Wildfire Coordinating Group (NWCG) courses, taught by instructors from different Federal and State agencies. Each of these instructors brings their own unique experiences and lessons learned to the table so that you come away from the Academy with a broader view of your profession.

If you have never been to this Academy before, we invite you to come see what we are all about. It is the perfect time to meet new friends, possibly reconnect with old friends, and grow professionally and personally. If you have attended past Academies, we invite you back to expand your knowledge of your passion and share your experiences with fellow students.

Here’s to another year!

The Academy Staff

DATE: May 14 - 24, 2013
LOCATION: Angelina Community College
3500 South First Street
Lufkin, Texas 75904
COST: $55 per day
$60 per day starting April 24th
(includes course materials and other expenses)
CLASS TIMES: 0800 – 1700 daily
(unless otherwise specified by instructor)
CHECK-IN: Starts at 6:30am daily
Room designation TBD
(Check-in required only on first day of attendance. You can check in the afternoon of the 13th if you class starts the 14th.)

Registration, hotel, and other information can be found at http://ticc.tamu.edu.

For additional information, please contact the Academy Registrar at 979.458.7330 or email academyregistrar@tfs.tamu.edu

Texas Interagency Wildfire & Incident Management Academy Mission
To enhance the wildland firefighters’ knowledge, utilizing National Wildfire Coordinating Group standards to promote safe and cost effective operations.
ATTENTION TEXAS VFDs:

Training tuition assistance is available to qualified departments through the Texas A&M Forest Service under the Rural Volunteer Fire Department Assistance Program (HB 2604).

Up to a maximum of $595 per trainee ($85 per day) and a maximum of $6,000 per department

To apply, please visit http://www.ticc.tamu.edu/hb2604.htm or call (979) 458-6505. Applications for training tuition assistance must be submitted to the Emergency Services Grants Division BEFORE the course date.

It seems in spite of advances in training, knowledge, equipment and technology we still lose people. ...One is too many...

The point is this; we are involved in a dangerous profession. We must not add to the inherent danger of the job itself through inattention or a lack of awareness, both situational or task oriented. There are hazards involved in every aspect of firefighting.

The best way to stay heads up and mitigate any of the hazards involved in fighting fire is through a high level of training.

So enjoy yourselves and take advantage of the training opportunities provided at the Academy.

...Good training makes us all better firefighters...

Jim Davis
Safety Officer

**ALL COURSES RUN APPROXIMATELY 8:00AM TO 5:00PM (UNLESS OTHERWISE SPECIFIED BY THE INSTRUCTOR)**

**SOME CLASSES MAY END EARLY; COST IS THE SAME DUE TO MEAL & COURSE EXPENSES**
COURSE DESCRIPTIONS

BEAST
Basic Engine and Suppression Tactics
This course will introduce students to basic wildland engine suppression tactics in both the rural and wildland urban interface settings. Students will also be introduced to basic engine terminology, structure triage, hose operations, and foam and water use practices to optimize the water available. The course consists of 8 hours of classroom studies and 8 hours of field work.
*Not an NWCG course
**Prerequisite(s):  NONE

DOZ OPS
Dozer Operations
This course is designed for the equipment operators that will be working in a wildland fire environment. It will cover basic dozer and heavy equipment tactics, safety, personal protective equipment, and supervision.
*Not an NWCG course.
**Prerequisite(s):  Successful completion of S-130/190

GPS
GPS Orientation
This course will help familiarize students with GPS units and their utilization in fire and EMS. Topics include: various types of GPS units and using GPS units in various fire and EMS situations.
*Not an NWCG course.
**Prerequisite(s):  NONE

L-180
Human Factors in the Wildland Fire Service
This training course is designed for unit-level supervisors to use when delivering orientation training to new crewmembers. Topics include: situation awareness; basic communication responsibilities; attitude and decision barriers; decision making process; teamwork principles. This course targets entry-level incident personnel.
**Prerequisite(s):  NONE

L-280
Followership to Leadership
This training is designed as a self-assessment opportunity for individuals preparing to step into a leadership role. The course combines one day of classroom instruction followed by a second day in the field with students working through a series of problem solving events in small teams.
**Prerequisite(s):  L-180, and successful completion of pre-course work.

NFPA 1041
Fire Instructor I Training
This course is designed to meet the needs of entry-level fire and emergency service instructors. The course meets or exceeds the job performance requirements in NFPA 1041, Chapter 4. The target audience for this course includes the Department of Defense, Industrial Brigade, and/or Municipal personnel. The Fire Instructor I course will provide the tools necessary to obtain certification through the National Professional Qualifications System (Pro Board), the Texas Commission of Fire Protection (TCFP) and/or State Firemen's and Fire Marshals' Association (SFFMA). The course is designed around classroom lectures, group activities, and individual presentations.  
*NOTE: Students attending and participating will be required to modify a lesson in Power Point format therefore it is highly recommended students have good working knowledge of computers, computer projection equipment and the use of Microsoft Power Point.
**Prerequisite(s):  NONE

S-130/190 (includes I-100 & L-180)
Basic Firefighter Training & Wildland Fire Behavior
This introductory course is designed to train entry-level firefighters. The student will gain an understanding of the basic incident management organization, firefighting techniques, suppression equipment, safety, strategy/tactics, along with basic fire behavior. Field exercises will be performed for valuable hands-on training.
**Prerequisite(s):  NONE

S-131
Firefighter Type 1 Training
This course is designed for the Advanced Firefighter/Squad Boss and Incident Commander Type 5. It provides a comprehensive review of the Fireline Handbook. Training includes strategy, tactics and safety. This course is designed to be interactive in nature.
**Prerequisite(s):  Qualified as a Firefighter Type 2 (FFT2).

S-133
Look Up, Look Down, Look Around
This course is designed to train Incident Commander Type 5 (ICT5) and Firefighter Type 1 (FFT1) to identify environmental factors and indicators of hazardous fire conditions, and how to use these indicators when implementing the Risk Management Process.
**Prerequisite(s):  NONE

S-200
Initial Attack Incident Commander (ICT4)
This course is designed to meet the training needs of the ICT4. Topics covered include: readiness and mobilization, size-up, planning and ordering, deployment and containment, administrative requirements, and post-fire evaluation.
**Prerequisite(s):  Qualified as any Single Resource Boss and successful completion of pre-course work.

S-203
Introduction to Incident Information
This course provides students with the knowledge and skills they need to serve as public information officer (PIO). It touches on all aspects of establishing and maintaining an incident information operation, communicating with internal and external audiences, to handling special situations.
**Prerequisite(s):  Successful completion of pre-course work

S-211
Portable Pumps & Water Use
This course gives the student practical knowledge and application skills of portable pump operations. The course consists of three skill areas: supply, delivery, and application of water. Field exercises train the student in the set-up, operation, and maintenance of pump equipment.
**Prerequisite(s):  NONE

S-212
Wildland Fire Chain Saws
This course provides an introduction to the function, maintenance, and use of internal combustion engine powered chain saws, and their tactical wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience operating a chain saw, providing hands-on cutting experience in surroundings similar to fireline situations.
**Prerequisite(s):  Qualified as a Firefighter Type 2 (FFT2) and successful completion of pre-course work.

S-230
Crew Boss (Single Resource)
This is a classroom course designed to produce student proficiency in performance of all duties associated with the single resource boss position, from initial dispatch to return to home unit. Topics include: preparation and mobilization, assignment preparation, tactics and safety, off-line duties, demobilization and post-incident activities.
**Prerequisite(s):  Qualified as an Advanced Firefighter/Squad Boss (FFT1), S-290, and successful completion of pre-course work.
S-231
Engine Boss (Single Resource)
This is a skill course designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include: engine and crew capabilities and limitations, information sources, fire size-up considerations, tactics, and wildland/urban interface.
**Prerequisite(s):** Qualified as an Advanced Firefighter/Squad Boss (FFT1) and S-230.

S-232
Dozer Boss (Single Resource)
This is a skill course designed to produce student proficiency in the performance of all duties associated with the single resource dozer boss (DOZB). Primary considerations are tactical use and safety precautions required to establish and maintain an effective dozer operation.
**Prerequisite(s):** Qualified as an Advanced Firefighter/Squad Boss (FFT1), and successful completion of pre-course work.

S-234
Ignitions Operations
This is an entry-level course providing training in the functional roles and responsibilities connected with firing operations. The course covers planning, ignition procedures and techniques, and equipment applicable to wildland and prescribed fire. This course also addresses the role of ignition specialist or firing boss as the organization manages escalation from a non-complex to a complex fire situation. This course is designed for those desiring to be qualified as firing boss (FIRB).
**Prerequisite(s):** Successful completion of S-290 and pre-course work.

S-270
Basic Air Operations
This course offers information on the uses of aircraft in fire suppression and provides instruction on how to conduct oneself on and around aircraft. It will familiarize the trainee with tactical and logistical uses of aircraft in fire suppression, as well as, describe the specifications for helicopter landing areas.

S-290
Intermediate Wildland Fire Behavior
This fire behavior course provides students with the knowledge of wildland fuels and fire behavior to make safe and effective fire management decisions on prescribed and wildland fires.
**Prerequisite(s):** S-130/190, and successful completion of pre-course work.

S-330
Task Force/Strike Team Leader
This course meets the training requirements for the positions of Task Force and Strike Team Leader. This course is designed to be interactive with several scenarios and exercises specific to wildland fire suppression. This course is for those desiring to be qualified as a task force leader (TFLD) or any strike team leader (STPL, STDZ, STEN, or STCR).
**Prerequisite(s):** Qualified as any Single Resource Boss; satisfactory completion of pre-course work.
